

230V~ 50Hz

Termini™ extension cable

DEFA Termini™ extension cable makes the installation easy and faster. This cable consists of a soft and armoured end. The armoured end got the DEFA PlugIn contact (A) and the soft end got a new and small Termini™ plug (B) to be fitted directly to the Termini™ interior heaters.

DEFA Termini™ extension cable is available in length of 1,75m and can be used for the DEFA Termini™ interior heaters who got the proper Termini™ plug only.

DEFA AS is conforming to the requirements of both ISO 9001-2008, ISO 14001:2004 and OHSAS 18001:2007. In addition to this, our engine heaters and cables are conforming to the requirements of ISO/TS 16949:2002.

Item number

460860 (1,75m)

Weight: 250 gram

Box: Single or 22-pack.

Part of

DEFA Termini™ extension cable is also part of DEFA WarmUp, ComfortKit and some cable kits (460750 and 460751).

Installation

Before the extension cable is fed through the firewall, make sure it is routed at a downward angle into the engine compartment ① so that no water leaks into the interior of the vehicle ②.

Install the cable according to the enclosed installation guide.

Technical specifications

Voltage [V]	250
Current [A]	10
Weight [g]	250
Length [m] (S/P)*	1,75 (0,75/1,0)
IP rating [IP] (A/B)	44/20
