

Repair it. Yourself!

NEW:

Leather and Vinyl Repair Kit

Covers of steering wheels and leather/vinyl seats wear with time, get ugly and make the car look run down.

This lowers the possible trade price for the car, too.

A renewal of a steering wheel cover or a repair of a hole in the seat by professional upholstery companies is quite expensive.

Thanks to the QUIXX Leather and Vinyl Repair Kits ugly wear marks, snags and holes in steering wheels and seat covers made of leather or vinyl are history.

This provides more pleasure with your ride and a good value retention.
